

## Coastal Enterprises

Coastal Enterprises, Inc. (CEI) helps to grow good jobs, environmentally sustainable enterprises, and shared prosperity in Maine and other rural regions by integrating financing, business and industry expertise, and policy solutions. CEI envisions a world in which communities are economically and environmentally healthy, enabling all people, especially those with low incomes, to reach their full potential.

CEI believes that our economy should work for everyone. As a mission-driven investor, CEI works closely with individuals and businesses to address operational, workforce, and environmental challenges, focusing particularly on key natural resource-based industries that can contribute to an inclusive and environmentally sustainable economy. CEI staff members also provide counseling and training for individuals and families, recognizing that building assets and managing debt, as well as a good job, are key ingredients for family financial security.

Over its 41 year history, CEI has grown from a small community development innovator operating in mid-coast Maine to family of organizations working across the state of Maine and in New England. Through its subsidiaries, CEI invests in businesses and enterprises in rural communities and small gateway cities across the United States. CEI strives to expand access to economic opportunity especially for people who are shut out of the economic mainstream or struggling in our economy.
